Sonoma County Library

Library Director Tom Trice
Assistant Library Director Molly McDermott

Special thanks to the Director’s Administrative Council, the Branch Managers, and the many Sonoma County Library staff members who participated in the work of this planning project.

It is important to recognize the several thousand residents who participated in focus groups held around the county, completed survey forms, and sat on Local Stakeholder Committees. Library staff and volunteers meet with the project team and contributed information and ideas that helped define library service needs and form the vision for the future represented in the Master Plan.

The Sonoma County Library and Group 4 Architecture Research + Planning, Inc. wish to thank Ladd Miyasaki from Sonoma State University who donated many hours of his time preparing for and facilitating community meetings throughout the planning process.
