

PASO A PASO

**Environment in Context y
tu tarjeta Student OneCard**

NECESITARÁS:

- Tu tarjeta Student OneCard
- Un Chromebook,
computadora o
smartphone

¿QUÉ ES LA TARJETA STUDENT ONE?

La tarjeta Student OneCard es una cuenta digital que te permite acceder a libros de la biblioteca y herramientas en línea.

PARA INCIAR UNA SESIÓN

Necesitarás tu:

- Prefijo del Distrito Escolar
- Tu identificación de estudiante
- Tu contraseña de cuatro dígitos

Ejemplos de números de cuenta:

- SRCS123456
- RVUSD123456

Ejemplos de contraseña :

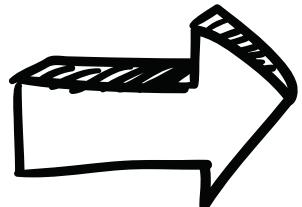

- (Año de nacimiento) 2006 o 2012
- (RVUSD MMDD) 0312 o 1211

Llama a cualquier sucursal de la Biblioteca del Condado de Sonoma para obtener ayuda con tu tarjeta Student OneCard.

PASO 1

Encuentra el enlace al eLibrary en nuestro menú principal.

The image shows a screenshot of the Sonoma County Library website's mobile menu. The menu is titled "Menu" and includes the following items:

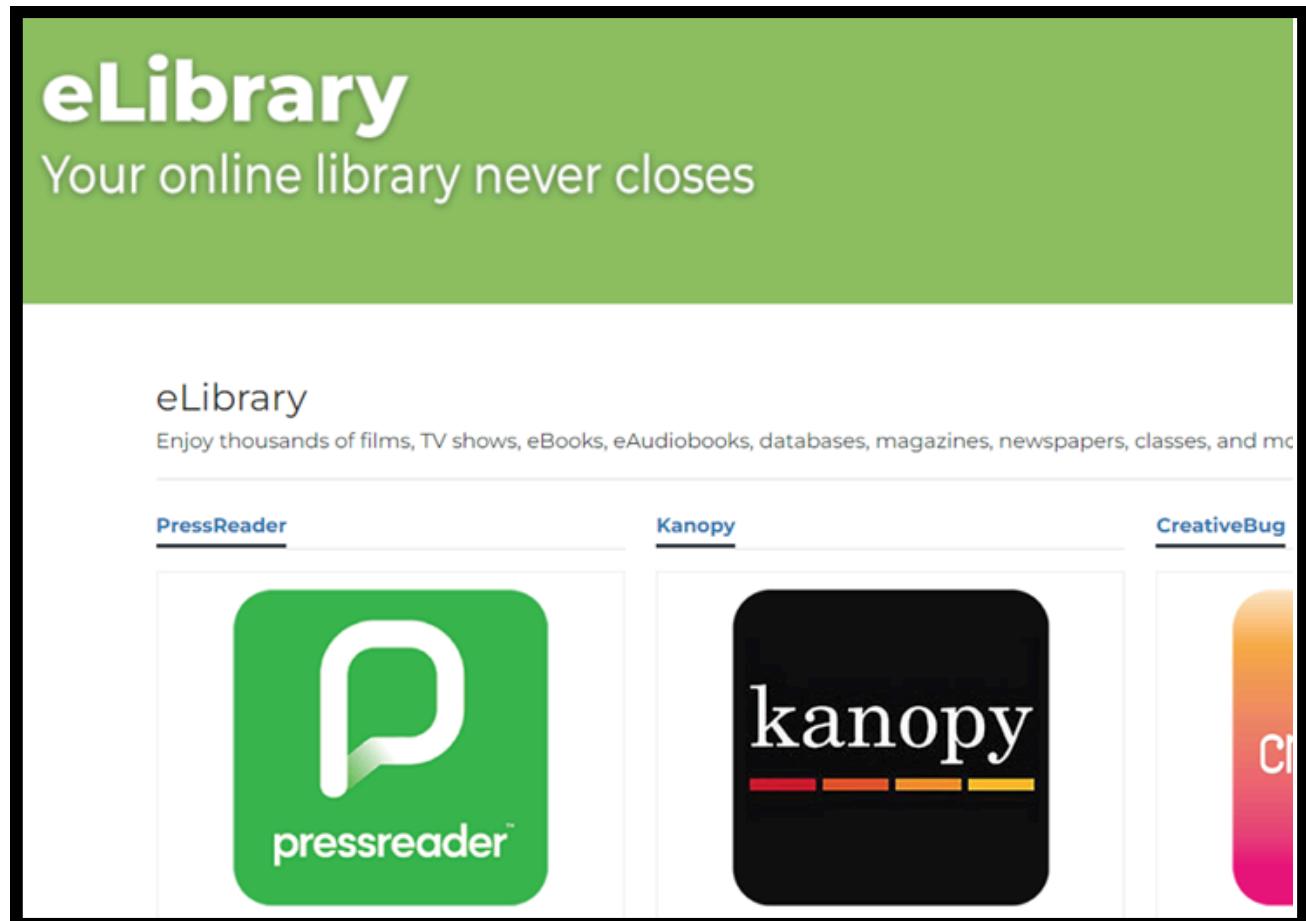

- Home
- eLibrary
- Join
- Visit
- Browse
- Learn
- Events
- Stay Informed
- More Cool Stuff!
- Locations
- My Account
- Get a Library Card
- eLibrary
- Ask Us

The "eLibrary" link is highlighted with a blue background and white text. To the left of the menu is a small "X" icon with the word "MENU" below it. To the right of the menu is a green sidebar with the text "eLi" and "Your" partially visible, along with the library's logo and name.

ISSUES OF INTEREST

Artificial Meat

Artificial, lab grown or cultivated meat, as some prefer to call it, is grown in anything from a test tube to a stainless steel bioreactor. The process is borrowed from research into regenerative medicine and might be the future of food.

- Islands
- Sea level
- Climate change

People who live in small island nations have already experienced the effects of climate change. Islands are vulnerable to extreme weather, which brings with it storm surges and salt water intrusion. Houses and crops can easily be destroyed. Freshwater supplies are often low to begin with, but they can be further endangered by saltwater incursion. Large surges of water such as tsunamis can completely inundate a small island with high ground only a few feet (meters) above sea level.

SMALL ISLAND DEVELOPING STATES

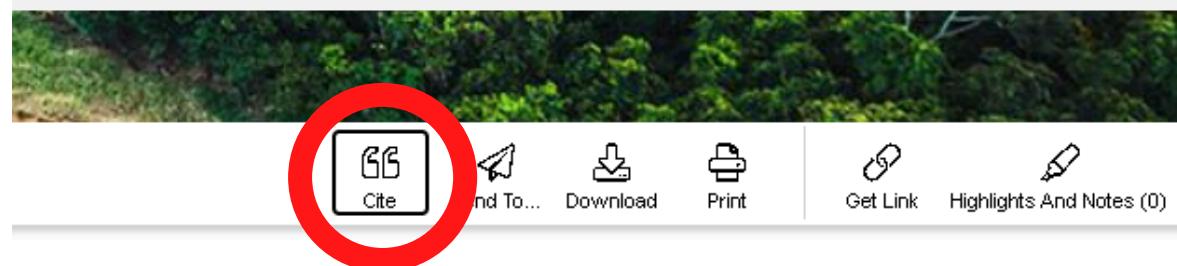

This personal relationship with climate change has put small island nations at the forefront of climate change activism. The United Nations has designated 38 countries as Small Island Developing States, or SIDS. Another 20 islands are associate members. These islands are all over the world: in the Atlantic, Pacific, and Indian Oceans, in the South China Sea, and in the Caribbean. Members include the Maldives, the Seychelles, Comoros, 16 Caribbean nation, Fiji, Kiribati, Nauru, Samoa, the Solomon Islands, and many others.

The SIDS are the nations most vulnerable to sea level rise. Most of them also have small economies and are heavily dependent on imported fuel, food, and consumer goods. They struggle to develop sustainably.

The SIDS regularly speak out at United Nations meetings, calling for renewable energy systems and reduced greenhouse gas emissions. Many of them are attempting to restore their own local ecosystems such as mangroves and to develop their economies in a sustainable way.
